ABOUT ME

A highly organized and dedicated individual looking for a responsible position to gain practical experience for continuously developing my skills and knowledge in my field of expertise, take on challenging projects, and strive for higher levels of responsibility and leadership with a strong academic ground consists of social science where I acquired needed knowledge of social systems and management (Programme, Performance and People). I aim to work collaboratively with local organizations, governments, and international agencies to design and implement effective strategies that address disparities in social inclusion and development. My research interests lie in areas critical to sustainable development, including education, climate change, women health, gender, gender-inclusive policymaking, arts and culture based approaches for better social system and inclusive development.

WORK EXPERIENCE

[03/04/2023–30/06/2025]

Teacher

JAAGO Foundation

City: Rajshahi | **Country:** Bangladesh

- Designed and delivered interactive, learner-centered lessons aligned with national curriculum, increasing student engagement by approximately 75%.
- Provided individualized academic support and mentoring, leading to 60% improvement in student performance.
- Facilitated the integration of digital tools and multimedia resources, enhancing classroom participation by 65%.
- Conducted ongoing assessments and maintained detailed records to improve tracking of student progress by 80%.
- Managed classroom environment with inclusive practices, contributing to improved student morale and behavior by 55%.
- Coordinated extracurricular and community-based learning activities, strengthening student-teacher relationships and social learning by 50%.
- Organized and facilitated school-level events such as cultural programs, parents' day, and student exhibitions, fostering a 70% rise in parental engagement and student confidence.
- Participated in professional development training and peer workshops, leading to a 40% increase in instructional innovation.

[01/10/2023 – 30/10/2024]

Undergraduate Research Assistant

Social Science Research Council, Planning Ministry, Bangladesh.

City: Rajshahi | Country: Bangladesh

Project Name: Socio-political Causes of Women's Inaccessibility to Government Facility-Based Childbirth in Bangladesh and the Way Out

This project involved me in collecting and analyzing ethnographic data through interviews and participant observations to understand the socio-political barriers to women's access to government facility-based childbirth in Bangladesh. Collaborating closely with esteemed sociologists and fellow researchers, I assisted in developing innovative research methodologies and data collection tools tailored to complex social dynamics. I also actively contributed to the creation of papers and presentations, offering critical insights into the intersection of gender, governance, and public health. This experience deepened my understanding of institutional health disparities and strengthened my capacity for interdisciplinary, policy-oriented research.

- Collaborated with academic researchers and scholars in the field of social science and public health.
- Assisted in the development of qualitative research methodologies and ethnographic data collection tools.
- Contributed to papers making and policy presentations, sharing insights on the socio-political barriers to institutional childbirth in Bangladesh.
- Gained valuable experience in interdisciplinary research and its implications for gender, governance, and equitable healthcare access.

[01/07/2021 – 30/07/2022]

Undergraduate Research Assistant

University Grants Commission, Bangladesh.

City: Rajshahi | Country: Bangladesh

Project Name: Moving towards Reducing Constraints on Women's Access to Obstetric Care in Bangladesh: From a Medical Sociological Perspective

As part of this project, I engaged in exploring the complex social and institutional factors that limit women's access to obstetric care in Bangladesh, approached through a medical sociological lens. My responsibilities included gathering qualitative data through field interviews, case narratives, and community interactions. I worked alongside experienced sociologists and researchers to shape data collection strategies that reflected the lived experiences of women in underserved areas. Contributing to scholarly discussions and project outputs, I helped articulate the socio-structural barriers within maternal healthcare. This experience strengthened my capacity to analyze public health issues from a sociological perspective and enhanced my skills in translating research into policy-relevant insights.

- Collaborated with sociologists and academic researchers to investigate structural and cultural barriers to obstetric care access in rural and urban Bangladesh.
- Conducted qualitative fieldwork, including in-depth interviews and focus group discussions with women, healthcare providers, and community stakeholders.
- Assisted in the design and piloting of data collection tools tailored to medical sociological inquiry.
- Contributed to the analysis of field data and preparation of academic reports and policy-focused presentations.
- Gained in-depth experience in health-focused sociological research, with an emphasis on gender, inequality, and healthcare systems in South Asia

[07/10/2020 – 31/12/2021]

Undergraduate Research Assistant

Bangladesh Climate Change Trust, Bangladesh.

City: Rajshahi | **Country:** Bangladesh

Project Name: **Anthropology of Climate and Agrarian Change**

This project engaged me in conducting and analyzing ethnographic research through interviews and participant observation, aimed at understanding the intersection of climate change and agrarian systems. Working alongside distinguished anthropologists and fellow researchers, I contributed to the design of innovative research methodologies and context-sensitive data collection tools. I played an active role in drafting academic papers and preparing presentations that highlighted the socio-environmental dimensions of agrarian transformation. This experience enriched my interdisciplinary outlook and deepened my understanding of climate resilience and its implications for rural livelihoods.

- Collaborated with anthropologists and interdisciplinary researchers focused on environmental and agrarian studies.
- Contributed to the development and implementation of qualitative research tools tailored to climate-affected communities.
- Participated in the writing and presentation of academic outputs on climate-driven changes in agricultural practices.
- Gained hands-on experience in ethnographic research and interdisciplinary approaches to climate adaptation and rural development.

ACADEMIC REPORTS

- 2021 **The Socio-Economic Opulence of Krishnanagar Pottery: A Study of Time-Honored Heritage in Nadia.**
University of Rajshahi, Bangladesh
Field Place: Kalyani, West Bengal, India
- This study highlights the cultural and economic significance of Krishnanagar pottery as a traditional folk art. It examined the role of pottery in festivals, its environmental context, and the socio-economic conditions of potters, highlighting the enduring heritage and community livelihood tied to this craft.
- 2020 **The Impact of Motifs and Patterns on Surface Design in Shital Pati and Bamboo- made Crafts on People's Emotion: A Study of Traditional Uniqueness in Folk Art.**
University of Rajshahi, Bangladesh
Field Place: Tangail, Bangladesh
- This study explored how traditional motifs and surface patterns in Shital Pati and bamboo-made crafts influence emotional responses and cultural appreciation. By engaging with artisans and communities in Tangail, the research investigated the aesthetic and symbolic roles of folk design in evoking memory, identity, and emotional resonance. The project emphasized the enduring cultural value and emotional depth embedded in traditional Bangladeshi craft practices.
- 2019 **Aesthetics in Folk Arts and Crafts of Bagerhat District. University of Rajshahi, Bangladesh**
Field Place: Bagerhat, Khulna, Bangladesh
- This paper focused on the aesthetic dimensions of traditional folk arts and crafts in selected regions of Bagerhat District. Through field visits, interviews with artisans, and visual documentation, I explored the symbolic meanings, design elements, and cultural significance of local crafts. The project aimed to highlight the richness of regional artistic heritage and its role in sustaining community identity and cultural continuity.

Foundation and Subject-based Training (Primary)

Organized by DSP, JAAGO Foundation

Date Completed: January 2024

2024

This training focused on enhancing foundational teaching skills and subject-specific pedagogical strategies for primary education. Conducted by JAAGO Foundation under the DSP initiative, the program covered modern teaching methodologies, classroom management techniques, and inclusive education practices. The training aimed to empower educators with the tools necessary to foster effective learning environments and support the holistic development of young learners in the primary education sector.

Art of Problem Definition

Organized by Passport to Earning Bangladesh (Generation Unlimited & ImaGen Ventures)

Date Completed: August 2023

2023

This course focused on developing the ability to clearly define problems before attempting solutions—an essential skill in innovation and problem-solving. The training emphasized structured thinking, root cause analysis, and real-world application through practical exercises. It aimed to equip participants with tools to identify core issues, enabling more impactful and sustainable solutions in various professional contexts.

BYLC Development Sector Career Bootcamp

Offered by BYLCx / Recognized by Bangladesh Youth Leadership Center (BYLC)

Duration: October 2023- December 2023

2023

This online training course was designed to equip participants with essential knowledge and career skills relevant to the development sector in Bangladesh. Through a combination of expert-led sessions, self-paced learning, and sector-specific insights, the program emphasized personal branding, effective communication, leadership skills, and the role of youth in development. Participants gained practical exposure to the career landscape in NGOs, international development organizations, and policy institutions, while receiving guidance from seasoned professionals in the field.

Associate Member, Rajshahi University Model United Nations Association (RUMUNA)

Platform for youth diplomacy, leadership, and global affairs at the University of Rajshahi

Duration: [January 2020 – December 2021]

2020-2021

This online training course was designed to equip participants with essential knowledge and career skills relevant to the development sector in Bangladesh. Through a combination of expert-led sessions, self-paced learning, and sector-specific insights, the program emphasized personal branding, effective communication, leadership skills, and the role of youth in development. Participants gained practical exposure to the career landscape in NGOs, international development organizations, and policy institutions, while receiving guidance from seasoned professionals in the field.

Student Leadership Development Workshop

Duration: [January 1 - March 31]

2021

This leadership development program was designed to equip participants with essential skills and knowledge for effective youth leadership and community engagement. Conducted jointly by BCCP and the United States Embassy in Rajshahi, the workshop offered a blend of expert-led sessions, mentorship, and experiential learning. The curriculum emphasized leadership development, cross-

cultural communication, and active civic participation. Participants engaged in service learning projects and networking opportunities under the guidance of experienced facilitators, gaining practical insights into social responsibility and collaborative problem-solving. The program culminated in a recognition ceremony celebrating the growth and accomplishments of all participants.
