To,

The Recruitment Committee

Green University of Bangladesh

HEAT Project (PIN:13761)

Subject: Application for the Position of Administrative Officer

Dear Sir/Madam,

I am writing to apply for the position of *Administrative Officer* under the HEAT Project, as advertised in Ajker Potrika. I hold a Bachelor of Science in Computer Science and Engineering from Khulna University of Engineering and Technology (KUET), and I am highly motivated to contribute my organizational, communication, and documentation skills to your administrative team.

During my recent internship at Merilsoft Software & Technology, I worked on several responsibilities relevant to administrative operations. I wrote formal Request for Proposals (RFPs) for various public sector clients, prepared internal technical documentation, and coordinated project tasks using Azure Boards. I also collaborated with remote teams through email and GitHub, managed file storage with AWS S3, and designed document templates for reports and publications. These experiences developed my skills in structured communication, deadline-driven coordination, and digital file management.

My background in technology enhances my ability to streamline documentation, track workflows, and manage digital records with efficiency. I am confident that my attention to detail, technical literacy, and ability to manage multi-step projects make me well-suited for this role.

I would be honored if my application is considered for this position. Thank you for your time and attention.

Sincerely,

Israt Tasnim Esha
