SUMMARY

Hands-on experience in Angular (HTML, CSS, Bootstrap, TypeScript) for frontend and .NET Core, C#, Entity Framework, SQL for backend development. Worked on real projects involving API integration, CRUD operations, reusable components, and responsive UI. Also familiar with Agile teamwork, bug tracking (JIRA/Bugzilla), and manual testing.

PROFESSIONAL EXPERIENCE

Trainee Software Engineer (Internship) **DivineForce Software Ltd.**

Jun 2025 – Aug 2025

- Worked on Angular 18 frontend, building components, reactive forms, DataTables, and responsive layouts.
- Added modals, validation, and reusable components to keep things clean and consistent.
- Used libraries like ngx-bootstrap, toastr, ngx-ui-loader, and ApexCharts to make the UI smoother and more interactive.
- Tested features manually, tracked issues in JIRA/Bugzilla, and also fixed bugs myself to improve stability.
- Took part in an Agile/Scrum team, joining sprint planning, daily stand-ups, and reviews.

SKILLS

- **Backend Development:** .NET Core
- **Frontend Development:** HTML, CSS, Bootstrap, Angular
- **Programming Language:** C, C#, JavaScript, TypeScript, Java
- **Mobile App Development:** Android Development (Java)
- **Software Quality Assurance (SQA):** Manual Testing, Test Case Design, Bug Tracking & Reporting(JIRA or Bugzilla)

PROJECTS

Fruit Bliss - Web Development Project

Developed a responsive e-commerce platform for browsing and purchasing fresh fruits. Implemented product listing, pricing, and quantity selection using HTML, CSS, Bootstrap, JavaScript, and PHP. Focused on user-friendly design and smooth functionality.

Coaching Center Management System - Web Development Project

Built a role-based management system for students and teachers to track grades, class schedules, and tuition fees. Used HTML, CSS, Bootstrap, JavaScript, and PHP.

Man Power Supply - Mobile Application Project

Developed an Android mobile application in Java that enables job seekers and employers to post and apply for jobs.

Hotel Management System - SQA Project

Performed manual software testing to identify bugs and improve system reliability. Executed test cases, reported issues, and ensured quality standards for a hotel management system.

EDUCATION

B.Sc. in Computer Science & Engineering

2020 - 2025

East West University

- Major in Software Engineering | CGPA: 3.49

Higher Secondary Certificate

2017 - 2018

Cox's Bazar Government College

- Group: Science | GPA: 4.67

Secondary School Certificate

2015 - 2016

Cox's Bazar Government High School

- Group: Science | GPA: 5.00

AWARDS

Medha Lalon Scholarship

11th Oct 2023

Awarded by East West University under the Medha Lalon Scholarship program for achieving academic excellence with a CGPA of 3.50 or higher.

PUBLICATIONS

TraceChainBD: Securing Supply Chains from Counterfeiting in Bangladesh with Blockchain and IoT Integration

IEEE

Proposed a blockchain and IoT-based supply chain solution to prevent product counterfeiting in Bangladesh. The system enhances traceability, ensures product authenticity via QR codes, and improves tax compliance through immutable smart contracts and real-time tracking.

AuthiFi: An Advanced Blockchain e-KYC Solution with Enhanced Wallet Security Using Shamir's Secret Sharing

IEEE

Proposed a secure blockchain-based e-KYC system using Shamir's Secret Sharing for wallet protection and identity verification. It enhances user data privacy, streamlines transactions, and ensures centralized verification without compromising decentralization benefits.
