

CURRICULUM VITAE

MD. MONIRUZZAMAN

Dhaka, Bangladesh

Cell No : 01828-160473

E-mail: mm956550@gmail.com

⌘ **Year of Experience: 7+ Years**

⌘ **Career Summary:**

"I am Electrical Engineer (B.S.C) with 7+ years of professional experience in the field of my career, I have worked in various engineering roles, including Technician at Pran RFL Group, Site Engineer at MB Engineering Limited for the Dhaka Exaco Factory, Site Engineer at Ezzy Automation Limited for the Dhaka Metro Rail Project and Computer operator at Gazipur Shaheen Cadet Academy in Bangladesh. My experience has equipped me with a solid foundation in electrical engineering, project management, and site development, and I am dedicated to applying my skills and expertise to contribute effectively in future engineering challenges."

⌘ **Professional Qualification/ Others Qualification:**

Worked as a **Sub-assistant Engineer (MEP)** at MRT line-06 (01-January -2021 to 30-April-2024) at **Dhaka Mass Rapid Transit Development Project MRT Line- 6.**

- worked at Gazipur Shaheen Cadet Academy as a Computer operator and Assistant Teacher at (01-Aug-2024 to 30-june-2025).
- Worked at site Engineer worked as a Site Engineer (MEP) at MB Engineering works (01-January-2020) to 30- November-2020) at Fire Protection, Detection and Hydrant System.
- worked as a Technician at PRAN_RFL Group works (22-January-2018 to 01-December-2019).

Professional Experience

Period : **01-Aug-2023 to till now.**
Employer : **Gazipur Shaheen Cadet Academy.**
Position : **Computer Operator.**

Responsibilities:

- Microsoft Office (Word, Excel, Power Point)
- Student Result Sheet, Attendance)
- Printing, Photocopy
- Student Salary Received.

Professional Experience

Period : **01-January-2021 to 30-April-2023**
Employer : **Ezzy Automation Limited**
Position : **Sub Assistant engineer (MEP)**
Project : **Dhaka Mass Rapid Transit Development Project MRT Line-6**

Responsibilities: MEP Works Installation (Mechanical, Electrical, BMS System & Planning)

- Responsible for the **installation, testing, commissioning, operation, and maintenance** of electrical and mechanical systems at the site.
- Oversee the **installation and commissioning of electrical substation equipment**, along with ongoing maintenance and servicing.
- Execute **medium voltage (MV) cable laying**, including integration with **Building Management Systems (BMS)** and **fire detection systems**.
- Install and manage **cable trays, conduits, lighting wiring, Sub-Distribution Boards (SDB), and Distribution Boards (DB)**.
- Ensure the **efficient operation of building infrastructure**, optimizing functionality and energy performance.
- Design, install, configure, program, and commission **customized systems** specific to building requirements and user needs.
- Perform **system upgrades and enhancements**, and ensure continuous monitoring and maintenance.
- Provide **user training, technical support**, and documentation such as system guides and manuals.
- Troubleshoot and resolve **technical issues** promptly to minimize downtime.
- Collaborate effectively with **engineers, technicians, architects, and clients** to ensure project objectives are met.
- Proficient in **Microsoft Office** and other industry-standard software tools.
- Uphold and promote a **strong safety culture**, ensuring a safe working environment at all times.
- Lead the **installation, testing, commissioning, and maintenance of fire protection and fire detection systems**.
- Interpret and implement **project plans and specifications** in alignment with client and regulatory requirements.
- Supervise and manage **technical staff**, maintaining liaison with architects and engineers.
- Prepare comprehensive **plans, details, specifications, and cost estimates** for plumbing, HVAC, and general piping systems.
- Offer technical guidance to **designers, supervisors, inspectors**, and contractors on MEP installations and maintenance.
- Analyze and resolve **mechanical, electrical, and plumbing engineering challenges**, providing effective solutions.
- Identify and address issues in **design, planning, and execution** across multiple projects.
- Plan, organize, review, and evaluate the work of **consultants, contractors**, and internal teams.
- Deliver clear and effective **oral presentations** as required.
- Advise the **Project Director** on technical aspects impacting the construction progress of mechanical services.
- Monitor and review **construction schedules**, ensuring MEP services progress aligns with project timelines.
- Manage and coordinate **day-to-day activities of the MEP team**, ensuring quality and compliance.
- Develop, review, and implement **electrical systems** including **power distribution, lighting, wiring, and control systems** for residential, commercial, and institutional projects.

Professional Experience

- **Period** : 01-January -2020 to 30-November -2020
- **Employer** : MB Engineering

- **Position** : **Sub-Assistant Engineer**
- **Project** : **Exaco Cap Factory, Jirabo, Dhaka, 33kv/11kv Substation, Chittagong**

Responsibilities: MEP Works Installation

- Make Daily as well as weekly plan to fulfill client target.
- Check all dimension for fabrication and erection.
- Collaboration with the project management team to interpret engineering drawing and ensure accurate implementation of designs.
- Able to understand all types of drawing (Fire Detection, Suppression & Electrical).
- Testing and Commissioning (Fire Detection, Protection & suppression system)
- Subcontractor Handling.
- To maintain all kind of job as per safety requirement.

Professional Experience:

Period : **18-January-2018 to 01-December-2019**
Employer : **PRAN-RFL Group.**
Position : **Technician.**

Responsibilities:

- Installing Electrical Systems Set up wiring, outlets, lighting systems, and control panels in buildings or industrial sites.
- Routine Maintenance Inspect and maintain electrical equipment to ensure it operates safely and efficiently.
- Troubleshooting Diagnose problems in electrical circuits, machines, or systems and take corrective action.
- Reading Blueprints Interpret technical drawings and electrical schematics to understand circuit layouts and system designs.
- Repair Work Replace faulty components like fuses, switches, motors, or wiring in equipment and systems.
- Testing Equipment Use tools like millimeters, voltmeters, and oscilloscopes to test the functionality of electrical components.
- Compliance with Safety Standards Follow national and local electrical codes and safety regulations to prevent accidents or hazards.
- Documentation Keep detailed records of repairs, maintenance, and system installations

Academic Qualification:

SL No	Name of Examination	Group/Department	GPA	Institute/Board Name	Passing Year
01	B.S.C	Electrical & Electronic Engineering	2.93	Northern university Bangladesh	2024
02	Diploma In Engineering	Electrical Technology	3.19	Muslim Aid Institute of Technology	2016
03	S.S.C	General	4.25	Dinajpur	2012

Industrial Training & Practice:

SL No	Name of Course	Duration	Department	Industry/Institute	Year
01	Internee	3 months	Electrical	Multipurpose	2017
02	Office Diploma	6 months	Computer	ZED IT Bangladesh	2022
03	House Wiring	6 months	Electrical	Muslim Aid Institute of Technology	2015

Linguistics Proficiency:

SL No	Name	Speaking	Reading	Writing
01	Bangla	Excellent	Excellent	Excellent
02	English	Good	Good	Good

Personal Information:

Name : Md. Moniruzzaman
Father's Name : Md. Azizul Haque
Mother's Name : Most. Monoara Khatun
Permanent Address : Village: Munshipara, P/O: Kawnear Char, P/S: Dewangonj Dist. Jamalpur
Present Address : Holing No- 66, Safiuddin Road, Auchpara, Tongi, Gazipur
Nationality : Bangladeshi
Religion : Islam
Sex : Male
Blood Group : B+
Marital Status : Married
Height : 5 Fit 5 Inc.
Weight : 68.5 kg.
National Id No : 7328732214
Birth Place : Jamalpur
