

Fardin Huq

About Me

As a Computer Science graduate from BRAC University, I actively seek a job that aligns with my major and passion. I have a keen interest in XR & Quality Assurance. Also, I am involved in research projects in the field of Human-Computer Interaction (HCI). Therefore, I'm highly interested in this type of position as I have my experience here. My eagerness for continuous learning, possessing strong problem-solving skills and a proven ability to thrive in team environments, I am poised to contribute effectively to projects that demand innovation and perseverance. I am eager to secure a job that fuels my growth and allows me to contribute meaningfully to cutting-edge initiatives.

Working Experience

Executive Editor at Forecast

November 2020 – May 2022

Key responsibilities:

- Supervising the editorial content
- Developing a strategic plan
- Coordinating all aspects of the production

Project Coordinator Intern(Game) at Battery Low Interactive

May 2024 – July 2024

Key responsibilities:

- Assistance in coordinating project activities
- Support in documentation and record-keeping

Project Coordinator at Battery Low Interactive

October 2024 – Ongoing

Key responsibilities:

- Analyzing and documenting system requirements
- Create project plans and select appropriate system technologies
- Managing and coordinating overall projects
- Conduct manual testing for quality assurance
- Oversee client communication and updates

Education Background

- **New Govt. Degree College, Rajshahi**
Higher Secondary Certificate
Year of Passing – 2018
- **BRAC University**
Bachelor of Science
Major in Computer Science
CGPA 3.12 out of 4.00

Publication

- DOI: [3588001.3609361](#)
ACM COMPASS – 2023
- DOI: [3674829.3675065](#)
ACM Compass – 2024
- DOI: [10.1145/373514](#)
ACM Journal

Professional Skills

- Language – English & Bengali
- Google Workspace
- Latex
- PyCharm
- GitHub
- Jira
- Trello

Expertise Area

- Teamwork & leadership
- Convincing Ability
- Understanding of different AI models
- Understanding of SDLC & STLC
- Python, Java & JavaScript
- HTML & CSS
- Manual Testing
- Bug Reporting & Documentation
- Automation Selenium

Certification

- Completion Certificate for Programming for Everybody (Getting Started with Python) - Coursera
- Certificate of Attendance in ACM SIGCAS/SIGCHI Conference 2023
- Completion Certificate for The Complete Quality Assurance Course- Learn QA from Scratch - Udemy

Passion

- Photography
- Reading Books
- Exploring Music & Culture
- Cartoon Drawings

Projects

• The Financial Express

A news website developed for one of Bangladesh's leading newspapers.

- **Coordinated and managed the project tasks**
- **Defined work plans and set task priorities**
- **Provided 24/7 client support**

• HLV Mobile App

An AI-powered MedTech app that personalizes health and wellness management. Its intelligent chatbot interacts with users, provides tailored health guidance and offers medicine recommendations based on individual conditions.

- **Project requirement analysis & Client communication**
- **Coordinated & maintained overall project tasks**

• PWD DMS

A digital database management system for PWD that stores project documents, tracks actions and results, and streamlines document forwarding and approvals to accelerate project development and reduce delays.

- **Project requirement analysis & Client Communication**
- **Set task priority and timeline**
- **Coordinated & Maintained overall project tasks**

• Drone AR

An interactive AR mobile game that combines real-world elements and drone mechanics through various mission-based and timed gameplay modes.

- **Project requirement analysis & planning**
- **Coordinated project development**
- **Performed manual testing**
- **Maintained Client communication**

• Chashi Nobanno Festival

An interactive web project for the Chashi-Square campaign featuring highly animated scrolling, a Unity-based Ring Toss game, quizzes, and video sliders to boost user engagement.

- **Conducted project analysis and planning**
- **Coordinated overall project activities & Client communication under tight deadlines**
- **Performed manual testing**

Dear Concern,

I am writing to express my keen interest in the Research Assistant position. With a strong academic background in Computer Science and a growing research portfolio, I am eager to contribute to your team's ongoing projects while further developing my research expertise.

I have authored and published three research papers in the field of Human-Computer Interaction (HCI), which have allowed me to explore user-centered design, interaction patterns, and usability evaluation methods in depth. These experiences have strengthened my analytical thinking, research design, and data interpretation skills. Currently, I am working on a personal research project focused on expanding my understanding of emerging trends in HCI, which continues to refine my approach to experimental design and critical analysis. I am particularly motivated to take on the Research Assistant role, as it presents an excellent opportunity to collaborate with experienced researchers, gain practical insights, and contribute to impactful academic work.

I am confident that my research experience, curiosity, and commitment to continuous learning align well with the goals of your team. I look forward to the opportunity to discuss how my background and ongoing work can add value to your research initiatives.

Sincerely,
Fardin Huq
