

Fahmida Tazrin

Research Assistant

Mobile: 01620470430

E-mail: tazrin02@gmail.com

Summary

Motivated and detail-oriented Research Assistant with a strong foundation in Python programming, data analysis, and Natural Language Processing (NLP). Passionate about exploring Large Language Models (LLMs) and applying deep learning techniques to solve real-world research problems. Eager to contribute to innovative projects and advance research through data-driven insights.

Education

- **American International University - Bangladesh (AIUB)**

Bachelor of Science in Computer Science & Engineering

CGPA: 3.39 (out of 4) — 2017

Skills

- **Programming Languages:** Python, SQL, JavaScript, HTML, CSS
- **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch, TensorFlow, React (basic)
- **NLP Tools:** NLTK, spaCy, Hugging Face Transformers
- **Data Handling:** Data cleaning, preprocessing, and visualization
- **Deep Learning:** Neural networks, fine-tuning pre-trained LLMs (GPT, BERT, etc.)
- **Front-End Development:** Building responsive interfaces using HTML, CSS, Bootstrap, JavaScript, and React; integrating APIs for data visualization and interaction
- **Version Control:** Git, GitHub
- **Tools & Platforms:** Jupyter Notebook, Google Colab, REST APIs
- **Software Proficiency:** Microsoft Office Suite, G Suite, project management tools, Adobe Photoshop
- **Other Skills:** Technical documentation, project management

Research Interests

- Natural Language Processing and Computational Linguistics
- Large Language Models and Prompt Engineering
- Deep Learning for Text Understanding
- Data-driven Decision Making and Predictive Analytics

Professional Experiences

Battery Low Interactive Ltd. — Research & Development (R&D) Assistant

April 2019 - Present

- Support the **design, development, and testing** of AI and data-driven prototypes.
- Conduct **data collection, preprocessing, and analysis** using Python (Pandas, NumPy, Matplotlib, etc.).
- Assist in building and evaluating **machine learning and NLP models**, including fine-tuning pre-trained models (e.g., BERT, GPT).
- Document experimental methods, results, and insights to support ongoing research or product innovation.
- Collaborate with developers, and product teams to translate findings into functional prototypes or features.
- Review and summarize recent **AI and ML research papers** relevant to current projects.
- Contribute to maintaining and improving **research pipelines** and reproducible workflows.
- Support in preparing **technical reports, presentations, and publications** as required.

BillowSys — Front-end Designer

April 2018 - October 2018

- Designed and developed the front end of different websites and software applications with HTML5, CSS3, and Bootstrap.

CT Health Ltd. — Front-end Developer

February 2017 - January 2018

- Designed and developed the front end of different websites and software applications with HTML5, CSS3, Javascript, and Bootstrap.

American International University-Bangladesh — Teaching Assistant

February 2016 - April 2016

- Helping and guiding the students in the Computer Organization and Architecture course under the course teacher, Assistant Professor, Mohammad Samawat Ullah
