

Thamid Junaeid

Full Stack Web Developer

01648937876

junaeidthamid@gmail.com

devjunaeid

junaeid

Gazipur

Passionate about creating efficient, scalable web applications with a focus on performance, usability, and clean architecture. I enjoy tackling complex challenges, enhancing user experiences, and building systems that are both thoughtful and maintainable. Adaptable, detail-driven, and committed to continuous learning and growth in every project I take on.

Experience

JR. Web Developer

Aug 24-Present

Green University of Bangladesh

Key Achievements

- Contributed to a multi-domain web platform (10 subdomains [view live](#)) using **Laravel**, **Inertia.js**, **Vue.js**, **Tailwind CSS**.
- Built a **global multi-model search system** using **Laravel Scout** with native drivers.
- Supported implementation of **role-based access control** using **Spatie Permissions**.
- Helped develop a **dynamic admin panel with CMS** and access control features.
- Maintained **clean**, **optimized**, and **secure code** following industry standards.

Core Responsibilities & Contributions

- Participate in **requirement analysis**, **feature planning**, and **UX/UI improvement**.
- Assist in **database design**, **query optimization**, and architectural planning.
- Contribute ideas and solve issues through **active team collaboration** and **R&D**.
- Engage in **continuous improvement** of **platform performance** and **usability**.

Projects

EDD (Company/Brand Website)

[engineersdesign.com.bd](#)

React | Next.js 14 | Recoil | Next Auth | Tailwind CSS |
Sequalize | PostgreSQL

Website for a Building "Design and Construction" Service Company. The aim of this website is to showcase the company profile and provide a project tracking system for clients.

- Responsive company profile page & real-time project tracking.
- Dynamic admin panel for managing mailing list and client projects.

Engineers Education

[github.com/devjunaeid/engineers-edu](#)

React | Next.js 14 | Next Auth | Tailwind CSS | Sequalize |
react-query | PostgreSQL

Website for an "E-Learning and Educational" Institution. The aim of this website is to provide general information about the institute and also their seminar registration link and schedule.

- Next.js 14 (CSR/SSR) with custom CMS & role-based auth.
- Sequalize ORM, admin panel & secure API with NextAuth.

EDUCATION

BSc. In CSE

2023

CGPA: 3.68

Green University of Bangladesh
